

# ScaleOUT-W with Siliphos

System Part: #05-260W  
Replacement Cartridge: CB Filter #101-260

## COFFEE, TEA & ESPRESSO APPLICATION

FOR: Scale Inhibition  
VOLUME: Low to High

- SPECIFICATIONS:**
- Rated Capacity (Gallons): 40,000 Gallons
  - Flow Rate: to 5 gpm
  - Min/Max Pressure: 40–125 psi.
  - Min/Max Temperature: 40°–100° F
  - Inlet/Outlet Size: 1/2 Inch Barbed Fitting
  - Shipping Weight: 8 lbs.
  - Dimensions (W/D/H): 7/5/14”

**SPECIFIED TO:**

- Inhibit scale build up
- Reduce pitting of stainless steel
- Protect heat generators in hot beverage equipment

**SPECIFIED FOR:**

- Coffee, Tea\* & Espresso Machines

**TECHNOLOGY:**

- Siliphos

**APPLICATIONS:**

Coffee, Tea\* & Espresso

\* While scale inhibitors are proven to protect equipment with hot water generators, scale inhibition materials have been known to increase cloudiness in tea in certain water climates.
